## About

---

I am currently a student at Cheney Technical High School who is learning the IST trade. I am capable of doing many different tasks, including but not limited to installing, configuring, and working with Windows and Linux operating systems, using image editing tools such as Photoshop and GIMP, video production software like KdenLive, and Oracle's VirtualBox to install configure and run various virtual machines. I am proficient at creating websites using HTML, CSS, JavaScript, PHP, and SQL. I am able to learn new skills quick and can help others learn them.
